## Identify correctly your ADIL washer.

Many ADIL microplate washers can be found as OEM products, therefore under other brand names. Every ADIL washer can be identified with its identification label on the rear side of the instrument. The Name 'ADIL Instruments' as well as the washer's serial number are written on this identification label.

Here are the serial number formats used for each model of washers :

Generic name	Year of production	Serial number format	Serial number example
LP35T	1987 to 1989	Txxxx	T1234
LP35U	1989 to 1995	Uxxxx	U1234
